In the Corporation Court yesterday morning Judge Clopton dismissed the case of Mr. D. L. Toney, who had appealed from the mayor's decision, finling him for having a horse at large.

The judge's decision was that the mayor could charke the same costs as a nisetice of the peace in all criminal cases before his court. The ordinance says that no one shall be permitted to allow his horse to go at large, and on the word "permitted" the case hinged, as Mr. Toney proved that he had not permitted his horse to go at large. It is probable that this ordinance will be so changed as to climinate the possibility of such a techniquity occurring gath.
